ALEXANDRIA, May 31, 1854. Juvenile Concert-Band of Brothers' Pic-Nic-City Council Proceedings-Young Men's Christian Association-Circus. On Monday evening, Kemmerer delighted another audience at Sarepta Hall with his Juvenile concert. The hall was densely

fitled, and the music excellent. During the day, the members of Mount Vernon Band, I. O. U. B., with a large number of their friends, spent a very pleasant time at Arlington Springs. The greater portion of the company tripped it on the "light fantastic toe" to the inspiring music of Esputa's band, whilst no small portion found ample amusement | J Hedd & son, NY in the verdant groves which surround Mr Hatch, Va that pleasant resort. The company re- 2r & Mrs Fant, do turned at a seasonable hour, highly delighted with their trip.

On Monday evening, the Common Council met pursuant to adjournment. The resignation of Mr. T. M. White was refused. The revenue bill coming up for N P Banks, jr, do consideration, Mr. Reid moved to amend so that taxes should be levied in the manner prescribed by our State law, viz: by a tax on incomes; and that the bill be recommitted for that purpose, which motion was laid upon the table by the following vote: Ayes, Messrs. Rogers, Lambert, Markell, Green, Smith, Marbu-J H Sears ry, Hallowell, Beach, McCormick, Witmer and Leadbeater-11. Noes, Messrs. Reid, Bodkin and Davis-3. The bill was afterwards passed.

An application for a pump near the Court-house, was referred to committee on grades. Leave was granted the proprietors of the Marshall house, to erect a portico, three feet ten inches wide upon the street. An order subjecting the wood arriving by railroad to city measurement, laid on the table: and the board adjourned.

The proceeds of the recent meeting of the Young Men's Christian Association amount to \$250. I am glad to learn the increasing prosperity of this useful Association, with a well filled reading room J C Watson & lady, NY already at their command. They propose to endow a free night school, which, during the coming fall and winter, will dispense the benefit of free education to all who desire to partake of its benefits. Our juveniles are looking forward with

delight to the advent of the circus of June.

## BALTIMORE CORRESPONDENCE.

the 5th proximo.

BALTIMORE, May 30-10 P. M. Sometimes coal may be "carried to New Castle," especially if there should be a "strike" among the miners, and the supply grows short. Obedient, therefore, to this principle, I shall venture upon giving you a little Washington news, and hope the members of Congress Information from an entirely reliable

source causes me to fear for the ultimate fate of the Pacific Railroad bill, now before Congress, although I believe a majority of the members favor the bill, yet from want of time, to the prejudice of other measures, will induce many (a majority) to vote for laying it on the table, particularly as they believe they are discussing a phantom. It is well known that the Secretary of War has not yet reported the numerous surveys, and until he completes his work, the House has no guide whatever to indicate the location of the road, or enable members to act understandingly. This, therefore, will be urged strongly as a reason for "tabling." To avoid such a result, hazarding the ruin and probable loss of the bill, would it not be advisable for some of its friends to make a motion to postpone its further consideration until the surveys of the different routes are fully reported, and let the business of the session proceed, particularly in the several bills for improving the army, navy, &c. If this bill should be laid on the table, as it is almost certain to be, under present circumstances, without some precaution, Julius Haul's Eau Lustra! and that very soon, there is a strong probability of its passing over to the VICTORIA next session, and hence the great importance of an easy transit to the Pacific

The Daily Times newspaper of this city has passed through another mutation. It was established as a respectable yearly subscription morning journal, at So per annum. Afterwards it changed win new ones, and secure to himself a living there to an afternoon paper; then to a penny sheet. To-morrow it promises to set sail again as a morning penny journal, upon the cash system. A new phase of sentiment is shadowed forth, understood to be of the Democratic order. In short, it is to be an out-and-out Democratic organ. Mr. Baylor continues as editor and proprietor. His political sentiments have heretofore been rather indefinite, but circumstances alter cases; and I have no doubt he will now stand erect and square upon the platform of Democracy. There are rumors, how true I cannot say, that the Hon. Joshua Vansant and the Hon. Henry May will lend their aid and encouragement in this new enterprize. My friend, Beale H. Richardson, the warhe se of the Argus, will doubtless brush up has "Old Citadel," and let off a few nand: Paixhans, which will strike terror into the heart of his young competitor. A hard-working co-laborer, as it has been, for nearly fifty long years in the cause of Democracy, having withstood the heavy artillery and broadsides of many a desperately fought battle, is not to be blown out of water in a day by such a small eraft. If the Times does not surrender, with this transformation, it will probably pitch on to the "Know Nothings." They are said to be a strong team, and pull well together. We must wait the result. In the mean time it has our best wishes for success; but the ramparts must be well manned. I learn that our fellow-townsman, Mr.

Cathers, agent of the Star, and bookseller of this city, a clever and much-esteemed son of Erin, departs to-morrow on a visit to Europe. May he realize his brightest anticipations of pleasure and return safely.

Mr. Elliott, the celebrated æronaut, proposes making another grand balloon ascension soon. On this occasion, having been so successful heretofore, he purposes taking up with him a half-dozen cats, a dog, and probably a monkey, which, at different altitudes, he will drop out, attached to parachutes. This must prove quite a novel feature in the way of ballooning. He alleges that the animals will descend in perfect safety. His ascension yesterday was the most beautiful and imposing I ever saw.

DE. MORSE'S INVIGORATING ELIXIR OR CORDIAL .- At first the s attributed to Pro'. MORSE'S INVIGORATING ELIXIR OR CORDIAE were deemed fabulous. The public often deceived, could not believe the simple and sublime truths at nounced by the discoverer .-But facts, undeniable facts attested by witresses of the highest class and character, are now triumph ing over all doubts. INCREDULITY IS OVER-THROWN by a mass of testimeny which is perfectly

The Elixin remedies, in all cases, the deplorable evils arising from a misuse or abuse of the various organs which make up the wonderful machine called man. It restores to full y gor every delicate functien connected with that mysterious compound agency of matter and mind, necessary to the re-production of human life. To persons of feeble muscu-lar frame, or deficient in vital power, it is recommended as the only means of communicating that energy which is necessary to the pr per enjoyment of all the natural appetites, as well as the higher mental attributes. Its beneficial effects are not confined to either sex or to any ege. The feeble girl, the ailing wife, the listless, ernevated you'h, the overworn man of business, the victim of nervous de pression, the individual suffering from general de lity, or from the weakness of a single organ, will all find immediate and permanent relief from the use of this incomparable renevator. To those who have a predisposition to paralysis it will prove a complete and unfailing safeguard against that terri ble malady. There are many, perhaps, who have so trifled with their constitutions, that they think themselves beyond the reach of medicine. Let no even these despair. The Elixir deals with diseas; as it exists, without reference to causes, and will not only remove the disorder itsel', but
